Making Health & Safety Your Business Ally

Andrew Confait
GM Customer Strategy & Support
SITESAFE

IT'S MORE THAN JUST HEALTH & SAFETY

- The importance and benefits of a great health and safety culture at your organisation
- Understand the benefits of **real** engagement, an open-door policy and how engaging with your workers can empower them to become leaders
- Learn how good engagement can help your bottom line

GOOD SAFETY FLOWS RIGHT THROUGH THE SUPPLY CHAIN

- Strong operational safety culture with your teams planning - and taking - ownership
- Better communication and planning from the start to finish, saves time and money
- Fewer accidents and injuries hurting your business

GOOD SAFETY FLOWS RIGHT THROUGH THE SUPPLY CHAIN

- Reduce risk to your reputation
- Everyone taking responsibility for safety
- The courage to speak up

WORKING TOGETHER FLOWS RIGHT THROUGH

- Collaboration is an approach to teamwork, planning and organisational culture
- Good, collaborative, practice across all areas flows into H&S, productivity and morale
- What kind of organisation do **YOU** want to be?

WHY H&S CONSULTATION PAYS OFF FOR ALL IN YOUR ORGANISATION

- Set health and safety standards, values and KPIs
- Work with designers to minimise risks
- Clear health and safety expectations, written into contract with H&S timeline of activities, use prequalification

WHY H&S CONSULTATION PAYS OFF FOR ALL YOUR ORGANISATION

- Show **leadership** – not a race to the bottom
- Pressure taken off here, creates a better flow for the supply chain, contractors and maintenance teams
