

WHY PREFAB?

Prefab is about building better.

It offers the following key benefits:

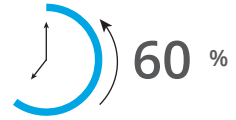

▶ QUALITY

91% of new houses have defects
87% of houses have quality defects

BRANZ SR316 2014

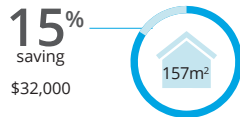

▶ TIME

60% of construction time can be reduced through offsite construction.

PrefabNZ Value Case 2014

▶ COST

15% saving
\$32,000
157m²
Prefab delivery can mean a saving of about 15% in total construction cost – \$32,000 for a 157m² house.

PrefabNZ Value Case 2014

▶ SUSTAINABILITY

2.5% ↓
International research points to waste minimisation savings in the order of 2.5% of the traditional tender price.

PrefabNZ Value Case 2014

▶ DESIGN

prefab does not mean repetitive design or standardised housing outcomes.

PrefabNZ Value Case 2014

▶ PRODUCTIVITY

Price Waterhouse Coopers estimates a

10% lift in construction industry productivity equates to a 1% lift in Gross Domestic Product.

PWC 2010

▶ HEALTH + SAFETY

Reducing time at height on site reduces health and safety incidents.
